SECTION 6 - SCHEDULE C

SCHEDULE C

MANUFACTURERS AND PLACE OF MANUFACTURE, TESTING AND INSPECTION

(Information to be supplied with Tender)

No.	Item	Type	Manufacturer	Place of manufacture	Place of testing and inspection
1-	400/132/33KV Auto-Transformers				
2-	132/33KV Transformers				
3-	Earthing& Auxiliary Transformers				
4-	33/11KV Transformers				
5-	33KV Reactors				
6-	Power transformer oil				
7-	Auto-Transformers and reactor oil				
8-	On-load tap changer OLTC for Auto-Transformers				
9-	On-load tap changer OLTC for power Transformers				
10-	400 KV SF6/Oil bushings (Transformer Side)				
11-	132kV Bushing (400kV transformer)				
12-	33kV Bushing (400kV transformer)				
13-	132kV Bushing (132kV transformer)				

No.	Item	Type	Manufacturer	Place of manufacture	Place of testing and inspection
14-	33kV Bushing (132kV transformer)				
15-	132kV Neutral bushing (Oil/Air)				
16-	33kV Neutral bushing (Oil/Air)				
17-	400 kV GIS switchgear				
18-	400 KV current transformers. (GIS)				
19-	400KV Voltage Transformer (GIS)				
20-	400KV Capacitive Voltage Transformer (Outdoor)				
21-	400 KV switchgear room overhead crane.				
22-	400 KV Surge Arrestors (GIS)				
23-	400 KV Surge Arrestors (Outdoor)				
24-	400 KV earth switch (Outdoor)				
25-	400kV LCC panels				
26-	Control and relay panels (400 KV,132kV &33kV)				
27-	Programable Transducer				
28-	Digital multi-function meter				
29-	Automatic tap change equipment.				

No.	Item	Type	Manufacturer	Place of manufacture	Place of testing and inspection
30-	Control and power cables for auxiliary service				
31-	132 kV GIS switchgear				
32-	132KV current transformer.				
33-	132kV Voltage transformer (GIS)				
34-	132kV Capacitive Voltage transformer (Outdoor)				
35-	132KV switchgear room overhead crane				
36-	132 KV Surge Arrestors (GIS)				
37-	132 KV Surge Arrestors (Outdoor)				
38-	132kV LCC panels				
39-	Neutral Current Transformers				
40-	Clamps and fittings				
41-	Neutral Earthing Resistor				
42-	33kV Capacitor bank				
43-	Capacitor bank Reactor				
44-	33 kV Switchgear				
45-	132 kV Power cables				
46-	33 kV Power Cables				

No.	Item	Type	Manufacturer	Place of manufacture	Place of testing and inspection
47-	400 KV SF6/air bushings. (OHTL Side)				
48-	33 kV power cable terminations				
49-	132 kV Outdoor Cable Termination (OHTL Side)				
50-	132 kV cable oil/air transformer terminations				
51-	132 kV GIS cable termination (GIS Side)				
52-	Cable Accessories				
53-	multicore cable				
54-	Conductors				
55-	400VAC distribution Board				
56-	Steel Structures				
57-	Fabrication of structural Steelwork				
58-	Tension and suspension insulators				
59-	Post insulators.				
60-	Insulator fittings				
61-	LVAC board				
62-	110 V DC charger				
63-	110 V DC battery				

No.	Item	Type	Manufacturer	Place of manufacture	Place of testing and inspection
64-	DC Distribution Board				
65-	Earthing Equipment				
66-	Cable Trays, cable leader and accessories				
67-	Standby Diesel Generator				

1- The Contractor shall select and propose only one manufacturer for each equipment.
2- Any other equipment can be added upon NEPCO request.
3- The contractor shall submit the list of control and protection equipment along with the offer.
